Fire Destroys Business Section of Wainwright Sunday

WHOLE OF BUSINESS DISTRICT DESTROYED — DAMAGE ESTIMATED AT ONE MILLION

Lashed by a gale which reached hurricane proportions and which spread the fire with such rapidity that persons barely escaped with their lives fire wiped out the entire business section of the thriving town of Wainwright early Sunday morning at a loss conservatively estimated to be around \$1,000,000. Insurance totalled half that amount and rebuilding will start at once.

Blaze Starts in Ancient Barn
Originating in an old barn at the rear of the residence of Mrs. Edward Nordstrom at the southwest corner of the town, the flames within a few minutes had enveloped the business section, which was turned in a brilliant flaming mass. Volunteer fire-fighters could do nothing, and with the spread of fire so complete and so rapid that there was no time to summon help either from Edmonton or Saskatoon.

"Fire fighting equipment from half a dozen cities couldn't have stopped it," Mayor Forester said Sunday.

The business section of Wainwright was contained in an area three blocks long by two blocks deep and today there is nothing within that portion but leveled piles of brick which are still smouldering. No building in the path of the onslaught saved, the intense heat and flames tearing down everything, even the stoutest of brick and concrete walls falling prey.

Seventy buildings fell before the march of the flames. Heavy brick structures seemed to melt before the eyes of horrified watchers, and cars which had been left in the middle of the street overnight caught fire from the intense heat, which burned everything except the metal fittings.

The entire section of the business part of the town, burning at one time, the hurricane-like gale whipped big flaming boards into the air, slapped them against the sides of buildings or on the roofs, and held them there until the flames had spread onto the buildings. From the time the fire first started until the whole of central Wainwright was on fire, from eight to twelve minutes had elapsed, according to eye-witnesses.

FULL LIST OF DISASTER

The following business places and dwellings were completely destroyed by the fire.

Atlas lumber yard, Messers Garage and equipment; Wainwright Studio; Wainwright Motors and equipment; Wainwright Steel Metal Works Ford Garage and equipment; Dupre's Garage and equipment; Gordon's Billiard Room; Telford's Barber Shop; Wainwright Realty; Swanson's Dray office; Wainwright Gas office; Patterson's General Store; Patterson's Apartment rooms; H. E. McDonald residence; B. C. Landry; Park Hotel; Post Office and equipment; McLeod's Furniture Store; Lush's Variety store; Alberta Restaurant; Sawyer's Men's Wear; Washburn's Hardware; Ladies Wear store; Stuart's Real Estate Office; Karmann's Boot store; Wainwright hotel; Alma Meat Market; Second-hand store; Wainwright Pharmacy; Medical office; Law office; Law office; Hero Cafe; Barber Shop; Harness shop; Grocery store; Liquor vendor's store; Confectionery store, Mah Kee; Royal Bank of Canada branch; City Laundry; Star Restaurant; Dwelling houses, J. McLean and W. Carsell; Billing's Bakery; General store; A. C. Armstrong; Office suites Bibby's dray office; Pastime Billiard hall and Barber Shop; Hannah's Hardware and apartments over store; U. F. A. Rest Room; Carpenter's shop; Dwelling, J. Bissan and family; Rustand's garage; Old Wain Office; Apartment building; Town Hall and Fire Hall; Bank of Montreal branch; Men's Wear Store; Law office; Ladies Specialty shop; Standard Pharmacy; Model Meat Market; Jewelry store; Medical office; Chevrolet garage; Brunken's service station and equipment; Implem't warehouse, Forster and Brunken; Bibby's stables; Municipal skating rink; Dwelling house occupied by Mrs. Hardy; Provincial police barracks; Cardell's barn; G. Glass's barn; Hedlund's Barn; Osdell's barn.

THE WAINWRIGHT FIRE

Everyone cannot help but feel sympathetic towards the business men and residents of Wainwright in the great loss sustained last Sunday when the entire business section and nine dwellings were totally ruined by the most terrible fire catastrophe that has ever visited a small town in western Canada. The fortunate part of it was that no one was even seriously injured, there being only a few who suffered slight burns. Many narrow escapes were reported. With the true western spirit the citizens say they are not down hearted but will rebuild a bigger and better town in every way.

WRIGHT FIRE SUFFERERS RELIEF SENT TO WAIN

As a result of the visit to Wainwright Monday when D. B. Henwood, deputy attorney general with H. A. Craig, deputy minister of agriculture, and J. R. Love, M.L.A. for Wainwright, made an inspection of the burned area and secured first hand information of the families who suffered from the terrible fire. A meeting of the town council was held Monday and an inventory was made of the requirements needed for those who had lost all of their clothing, furniture and practically everything they possessed. The party left Wainwright late Monday night and had a car loaded with everything that was needed, including bedding, stoves, clothing, furniture and other necessary articles Tuesday morning. This was all distributed in Wainwright, by representatives of the Provincial Government by Wednesday night. The Canadian National Railway shipped the car of goods on a fast train from Edmonton free of charge. In addition to the above the Red Cross has had which had been left in the middle of the street overnight caught fire from the intense heat, which burned everything except the metal fittings.

WAINWRIGHT TAKES FIFTH PLACE IN DISTRICT EXHIBITS AT EDMONTON

Mr. Arthur Peterson returned to Irma Monday after spending a week at the Edmonton Exhibition where he had charge of the exhibit for the Wainwright Constituency. Mr. Peterson was handicapped in getting his display through lack of time and funds to supply suitable bunting to show off the display. This is the first year Wainwright has been represented at the Edmonton Fair but now that such a good showing has been made more interest will be shown another year.

A score sheet of points awarded shows that Athabasca Constituency received 463 points out of 525 available; while Wainwright received 363 points out of 525 available. Thus Wainwright was only 100 points behind the first prize winner.

Wainwright, a pick up last minute exhibit in a dried out district showing against three large Boards of Trade, one the largest in Alberta. Athabasca has over 400 members. Lacombe was winner at Calgary; Sedgewick second. Wainwright scored highest over the seven districts in points for forage plants. We can beat that with more time to collect and design an exhibit of this kind. Thanking those who contributed to make it up, Mr. Wm. Stuart and Stan Baker in collecting, Mr. H. Love for honey and bees, Mr. Wm. Masson for sheafs from his office.

Mr. Arthur Peterson has given a lot of time in selecting samples for the display and deserves a hearty vote of thanks from everyone in the Wainwright constituency.

Let us get together next year at an early date and make this the best exhibit at the large fairs.

FAIR NOTICE

At a meeting of the directors of the Irma Agricultural Society held July 11th it was decided to cancel the fair for this season owing to the late condition of the crops.

Tenth Annual Convention Battle River Constituency

The tenth annual convention of the Battle River Constituency was held in Wainwright, Monday and Tuesday, July 15th and 16th.

The first morning session held in Wainwright Theatre was taken up with routine business and the addresses of the Secretary and President. The Secretary Treasurer's report showing the organization on an improved financial basis.

The President received the activities of the Federal U.F.A. members at Ottawa and showed that the U.F.A. was indeed justified in taking political action and that the first great success nor did going into politics wreck the U.F.A. as many had predicted.

In the afternoon on the picnic grounds of the Wainwright Park, Mr. Love, the Provincial Member for Wainwright spoke on Co-operative marketing dealing especially with the subject of the propaganda that is being carried on by the opponents of the Dairy Pool in circulating of a paper. In a most effective address he showed the cowardly and false stand it was taking and stressed the need of the U.F.A., the parent society of these movements in Alberta, making an effective effort to offset the propaganda put on to destroy the efficiency of the pool.

He was followed by Mr. Irvine, M.P. for Wetsaskiw, who in a brilliant, witty and thought provoking address spoke on Cooperative Government functioning efficiently under the present system and outlined the parliament of the future in which each member would represent his own economic group and work co-operatively with representatives of all other economic groups.

Hon. R. J. Reid, in an able speech on Co-operative Financing pointed out that cooperative societies with no share capital except a nominal fee found it difficult to finance these enterprises and the Provincial Government which is very sympathetic to co-operative development, during the past session had passed a bill making it to the government to the extent of eighty five per cent.

One of the season's wind storms seemed to do its best to mar the afternoon by making it difficult for speakers and for the supper committee, but despite the wind, the spirit of the day overcame these drawbacks and a most enjoyable afternoon and evening was spent.

In Mr. Spencer's report, he gave a synopsis of the Speech from the Throne, together with the general replies as enunciated by the four leaders representing generally the viewpoints of their respective groups.

He then referred to the main clauses in the Budget, and quoted the amendment and sub-amendment as moved in turn by the Conservatives and the Independent groups.

Reference was made to the resolutions on the Order Paper, many of which, unfortunately were never reached.

It was worth noting that when private member's day was cancelled there were still 28 resolutions to be considered, which speaks well for the initiative of the private member.

A summary of expenditure for the year ending March 31st, 1929, was then given by Mr. Spencer in some detail, which showed that the sum of over \$361,000,000 was being expended in 37 different ways. A list of the most important private and public bills was then given and a short synopsis was outlined of each.

An interesting part of his address was a report on the work of the special or Standing House Committees. Those included such committees as:

1. Dominion Election Act.
 2. Agriculture and Colonization.
 3. Railways and Canals.
 4. Standing Orders.
 5. Banking and Commerce.
 6. Industrial and International Relations.
 7. Public Accounts.
- Some outstanding subjects of the session might be enumerated as follows:
1. The Lease of the Seven Sisters Falls in Manitoba.
 2. Federal Control of Water Powers.
 3. Debate on Federal grant for provincial roads.
 4. Criticism of present divorce legislation.

5. Grain Act Administration.
6. Censure against Postmaster General.

7. The taking over by the Canadian National of numerous small railways.

8. \$500,000,000 for Montreal Terminals. (C. N. R.)

Two outside commissions are working on Government business; one to consider the salaries of technical Civil Servants, and another on Radio Broadcasting.

During the session no less than 336 bills were passed, made up as follows:

34 Private Bills other than Divorce.
64 Public Bills.
238 Divorce Bills.

In concluding his report, Mr. Spencer referred to the votes cast during the session, and the part he had taken.

At the conclusion of his address an opportunity was given to the audience to ask questions of the member or to make suggestions.

Other excellent addresses were given by Mrs. Warr, President of the U.F.W.A. who gave much valuable information on the Educational Act, and on Public Health and also much deplored the expenditure on preparation for war when disputes should be settled by arbitration.

Mrs. Pickle, the Provincial Director of the U.F.W.A. gave a timely talk to all workers in the organization.

Mr. Enzanauer, M. L. A. for Alexandria in his forceful address on the Experiment of Democracy reminded his audience that they got what they paid for in service of their representatives as in other things, and also compared the economic status of the farmer with other callings.

Several resolutions were discussed and carried: that the Provincial Government go into power development that a further investigation into the question of health in its various phases be made and also one supporting the government in its work of co-operative institutions.

The officers elected for the coming year were as follows:

President Walter Skinner, Vice-president: Mr. Pickle, with Messrs C. East, H. Wood, Hertzog and B. C. Lees as directors.

CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH

On Sunday, July 28th the services will be as follows:
Ross at 11 A. M.
Alma Mater at 2 P. M.
Rochester at 3:30 P. M.
Irma at 8 P. M.
All are cordially invited.
J. R. Geeson

The W. A. of the Anglican Church are holding a picnic at Steffensen's lake on July 28th. Everybody welcome. Ladies please bring baskets. Cars leave Irma from the Post office at 1:30 P. M.
Sunday School at 11 A. M. July 28th in the Masonic Hall.

TENDERS

Tenders will be received until August 2nd for Kalsmining and painting Sunny Brae School particulars may be obtained from T. Sanders, Sec. 11

"I hear you have been telling people that I am a fool," said a Jarrow fellow to his Irma girl. "Well, what of it?" she asked. "It isn't a secret."

Wedding Bells

GWINN — HAASEY

A lovely midsummer wedding was solemnized at 11 o'clock on Saturday morning at the home of Mr. and Mrs. C. Haasey, Irma, when their only daughter Lavinia C. was united in marriage to Lewis Gwinn, third son of Mr. and Mrs. L. J. Gwinn of Irma by Rev. A. M. Trendell.

Given in marriage by her father, the bride was charming in Rose, georgette trimmed in Velvet and her bridal bouquet was ophelia roses, lilies of the valley and maiden hair fern.

The bride was attended by two bridesmaids, Miss Bulah Blade and Miss Eleanor Barber, the former wearing a becoming frock of Maize Satin trimmed in gold lace and carried beautiful flowers of roses, peonies and fern. The latter wearing light blue Crepe-de-chene and her bouquet of roses, peonies and fern.

The groom was attended by Mr. Raymond Garneau and Mr. William Blade.

Following the ceremony about 400 guests, near friends and relatives of both parties were bidden.

Mrs. A. Haase, the bride's mother received with the bridal party.

Mrs. Haase chose for the occasion a dress of rose crepe black satin trimmed in gold lace, and Mrs. Bourret, the bride's aunt, wearing black silk crepe. Baskets of peonies and candy, with fern, decorated the reception room, white streamers caught with rosebuds were suspended from the centre of the room and a large white bell under which the bridal party stood.

Mrs. Bourret, Mrs. L. A. Hager, Mrs. Barber, Miss Barber and Miss Knudson served the guests.

Later the bridal couple left by motor to spend their honeymoon in different parts of the States.

The presents included china, linen and silver.

Mr. and Mrs. Gwinn will be at home after August 10th. Mr. Gwinn will continue his work as fireman on the C. P. R. out from Hardisty.

U. F. A. AND U. F. W. A. RALLY

A Rally of the Wainwright U.F.A. and U.F.W.A. Provincial Constituency Association will be held on Saturday, August 3rd at eleven o'clock on the picnic grounds in the Buffa Park. Business Meeting in the morning. Addresses by Mr. Love and a cabinet minister in the afternoon. Basket Picnic, Tea and Coffee provided. Come and bring your friends.

PROPOSED BY-LAW No. 27

A By-Law of certain portions of the Municipal District of Battle No. 423 for Restraining Animals at Large.

1. In this By-Law unless the context otherwise requires the term "animal" includes horses, cattle, sheep, swine, goats, poultry and all animals commonly known as domestic animals.

2. No animal the property of any person shall at any time be at large in those portions of the said Municipal District commonly known as Division 5, but more particularly only as described as follows.

Division No. 5
All of Township 46 Range 8 West of the Fourth, Sections 1 to 36 inclusive and the North half of Township 45, Range 8 West of the Fourth, Sections 19 to 36 inclusive.

3. For all purposes of this By-Law any animal shall be deemed at large which is off the premises of its owner and is not under control (direct) of its owner or some one acting under its authority or is not confined within any building or fenced field.

4. This Council of the said Municipal District may from time to time establish pounds at such places as to it may seem advisable. All pound-keepers shall be bound by the provisions of the Domestic Animal Act (Municipalities) being 1923 Statutes of Alberta Chapter 25 and amendments thereto or substitutions thereof.

5. Any animal at large contrary to the provisions of this By-Law may be impounded and dealt with in accordance with the Domestic Animal Act being chapter 25 Statutes of Alberta 1923 and amendments thereto and substitutions thereof.

I do hereby certify that this is a true copy of the original By-Law.
R. J. TATE, Sec.-Treas.

Hike For Health!

Automobile laziness is stated to be the cause of one hundred times as many deaths annually as are caused by automobile accidents. The automobile has made it possible for us to get through life with hardly any exercise unless we are fortunate enough to be employed in some variety of manual labour. This has completely changed our mode of living but not our diet; we still eat the same quantities of rich heavy food customary many years ago.

Easy and quick transportation at any time by automobile should be one of our chief blessings; to many it appears to be far from that. The medical profession has been aware for some time of the great increase of disease among the well-to-do. The situation has become so marked that our great insurance companies are becoming seriously alarmed. Investigation has shown that fully 90 per cent. of the well-to-do members of our population have either undergone an operation or are suffering from some kind of disease, and the number of sudden deaths of apparently healthy people is increasing alarmingly.

The blame for all this is placed unhesitatingly upon the thoughtless use of the automobile. To preserve his health man must exercise. The languid game of golf after sitting all day either in his office or automobile has proved but a poor substitute. Even less effective is the modern method of enjoying our sports by sitting on a grand stand and watching others play. Football, football, or horses run a race. Many try to replace exercise by food and patent medicines, and thereby enrich many charlatans but benefit themselves very little. We are clamouring for larger hospitals and more operating rooms; we would be wiser to clamour for more parks and recreational areas where we may pleasantly indulge in natural exercise.

It has become the fashion among the motoring public to drive through our parks and along our highways as fast as the law allows, and to agitate for extended roads higher and yon, so that they may drive further from the beaten path. The motoring public of tomorrow will undoubtedly have different ideas; they will appreciate motor roads located through attractive districts with numerous parking places from which they may explore on foot the beauties not to be seen from the road. They will be anxious to learn what is behind the hill. Now, the average motorist has but little to tell of his trip except his daily mileage record; then, the subject of his motor trips will be treated by his friends with the discretion now used towards a postage stamp collector. When once started on a description of the trip, photos, mineral specimens, and curios of many kinds will be produced, and the story of the trip will be a long one full of plans for the exploration of other districts in the future.

There is no more delightful nor healthful way to spend a week-end than on a new trail. Popular books, plays and amusements are usually "different." National parks provide something different every few minutes; the scenery, both in relation to light and shade and relative position, is always changing; there is always the lure of the unexpected just around the corner. Many and varied are the objects to interest the observant which will never be noticed by the long-distance hiker who, like the present day motorist, takes his pleasure from his mileage records. Some of the world's richest mines have been passed unnoticed by hundreds before the man with the seeing eye came along to see, investigate, and become the envy of his less observant fellows.

An elderly clergyman was found wandering alone in the mountains. He said that during a serious illness he realized that in his lifelong study of the word to come he had seen very little of the world in which he lived. His enjoyment of his surroundings was almost pathetic; he realized too late how much of the beautiful in this life he had missed.

Various foreign governments carefully foster physical culture either in the form of citizens' military training camps, great athletic meets, or Olympic games, in which thousands of athletes annually take part.

Walking has become very popular in many European countries. In Germany they were quick to grasp the significance of this, and shelters have been established at suitable points of interest throughout that country which were patronised by over twenty million hikers last year. Not only university students to whom a hike was a college week worth weeks of college, but hosts of wage earners from the large cities made up their own parties of from half a dozen to a hundred or more, and had a most enjoyable holiday at slight expense.

Obviously the scheme is of national benefit. National health is improved and patriotism fostered by broadening the vision and familiarizing the people with their own country.

The most robust employee usually commands the best wages, but during slack times the weak ones are discharged, or possibly become a charge on the community. National prosperity is based on national health. Strong robust manhood and womanhood is the foundation on which a strong nation must rest. Canada has much beautiful scenery, and it is not restricted to any one section of the Dominion. Why not familiarize ourselves with our own country by walking through it? Why not set aside, each year, a hiking week, preferably in the late summer or early fall months, and go on a hike of thanksgiving for our present health and gather a harvest of health for the future?

Canada's Fire Losses

Loss From Fire In 1928 Amounted To Huge Sum Of \$102,697,849

Canada's fire loss in 1928 was \$102,697,849, according to the survey read at a session of the Dominion Fire Prevention Association and the joint convention of the Associated Fire Marshals, by the Dominion Fire Commissioner, E. Grove Smith.

Insurance premiums in excess of losses paid amounted to \$20,367,337.

Ontario sustained losses through

10,000 Bottles a Day

Mr. Stout—You don't say? Twice as old as she. Just think, when she's fifty he'll be 100.

Minard's Liniment for Neuralgia.

Tribute To General Booth

Aged Commander Died Penniless Although He Controlled Millions

Appreciation of General Bramwell Booth was high during his lifetime—he was the main builder of a worldwide organization dedicated to the service of humanity; it was perhaps even higher at his death, when came opportunity to review his works; it will be higher than ever as the result of an examination of his "estate."

The fact of the matter is there is no estate. It is revealed that the aged General died absolutely penniless. He owned not one cent, and he left no property other than his uniform and a few books. He controlled millions in money and property but never drew a cent from the Army. He subsisted on a trust fund of \$2,500 a year, did not own the house in which he lived, and looked to relatives to pay his children's fees at educational institutions.

There are various elements which enter into true greatness. One is capacity; others are service to one's fellows, unselfish sacrifice. General Booth had all these. To die penniless is sometimes accounted an object for pity or scorn. In the case of Bramwell Booth it is yet another tribute to the man and his works. Regina Daily Post.

WEAK, WATERY BLOOD

Is the Cause Of Much Distress and General Weakness

Anemia—really means weak, watery blood is responsible for the pale faces, thin cheeks, dull eyes and drooping figures one sees so frequently. It is the chief cause of headaches, weak backs, aching limbs and uncertain health. Every weak, anemic person should with the right to be well by refreshing thin, watery bodies with the new, rich, red blood so promptly supplied by the use of Dr. Williams' Pink Pills. This new blood reaches every organ and nerve in the body and quickly banishes all these troubles that have their origin in watery blood. Among those who have found new health and strength through the use of Dr. Williams' Pink Pills is Mrs. Elizabeth Evans, Amherst, N.S., who says: "When I began taking Dr. Williams' Pink Pills I was so weak and run-down that I could scarcely go about the house, and found housework almost impossible. I was taking doctor's medicine, but with no apparent benefit. I had often read about Dr. Williams' Pink Pills and decided to try them. Soon I found they were helping me, and under their continued use I regained good health. The pills also completely relieved my son of St. Vitus Dance, so that I have every reason to praise them."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fire Protection For

Japan's New Bank

Architect Plans To Surround Building With Water

Something new is being planned in the way of fire protection in Japan. The Bank of Japan plans a new building approximately three times the size of the present structure at a cost of 25,000,000 yen. Work will be started soon and completed in several years. The present building will remain as an annex. The new building will be five stories high. Plans of the architect call for the diverting of water from one of Tokyo's canals to surround and protect the bank vaults in case of fire. The architect declares it will be possible to turn the water on at a moment's notice.

LAXATIVE FOR BABY THAT "STAYS DOWN"

Baby's tiny system rebels against castor oil and strong purgatives; but here's a medicine that just suits him. And it does the work quickly and so gently that Baby doesn't feel it. Fletcher's Castoria is soothing, cross, fretful babies and children to sleep and making the feverish, constipated, upset ones well and happy in millions of homes today. Castoria is purely-vegetable, harmless and endorsed by the medical profession. Avoid imitations. The Chas. H. Fletcher signature marks genuine Castoria.

Willing To Oblige

The "Corriere d'America," Italian tabloid newspaper, has increased its size. An editorial explained the change was made because an Italian reader in Trenton, N.J., complained in a letter that the paper was too small to wrap his lunch in.

Canadian National Railways Earnings

Increases Shown For First Five months of Present Year

Gross and net earnings of the Canadian National Railways for the five month period from January 1st to May 31st, show increases in comparison with the similar five month period of 1928, according to the official financial statement issued from headquarters.

During the five months of 1929, the gross earnings amounted to \$101,948,290 as compared with \$101,180,759 for the five months of 1928, an increase during the current year of \$767,531 or 0.75 per cent. For the first five months of 1929, the working expenses totalled \$86,500,272.37 as against \$84,117,042.07 for the first five months of 1928, an increase of \$2,385,230.30 or 2.83 per cent.

This furnishes net earnings for 1929, of \$18,448,017.63 in comparison with net earnings for the first five months of 1928, of \$17,063,716.93, an increase for the five months of this year of \$1,384,300.70 or 8.11 per cent.

As a result the operating ratio for the first five months of 1929 has been reduced to 82.42 per cent. from 83.14 per cent.

For the month of May last, the gross earnings of the Canadian National Railways amounted to \$22,527,219, as against \$21,751,337 for the corresponding period of 1928, an increase of \$775,882.00.

Working expenses for the month of May last, totalled \$19,373,149.85, as against \$18,095,000.28 for May 1928, an increase of \$1,278,149.57. This increase was due particularly to the fact that the maintenance programme began earlier this year owing to the more open season.

Net earnings for May last, amounted to \$3,154,069.15, while in May 1928, net earnings totalled \$3,655,436.72. The operating ratio for May was 86.00 per cent. as against 83.19 per cent. in May, 1928.

Nothing As Good For Asthma As Asthma Remedy ever came and go but every year the sales of the original Dr. J. D. Kellogg's Asthma Remedy grow greater and greater. No further evidence could be asked of its remarkable merit. It relieves. It is always of the same unvarying quality, which from sufferer to sufferer learns to know. Do not suffer another attack, but get this splendid remedy today.

The Right Honorable Lady

New Phrase Is Used For The First Time In British House Of Commons

"The Right Honorable Lady" has been heard in the British House of Commons for the first time, replacing temporarily the stereotyped masculine designation of a member of the privy council. "The Right Honorable Gentleman." The reference was made recently when Sir Ascheton Pownall, Conservative, questioned Miss Margaret Bondfield, the new minister of Labor and first woman cabinet member and privy councillor, on a point of her administration.

The Family Physician.—The good doctor is always worth his fee. But he is always possible to find a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as "Thomas' Electric Oil," which is wonderfully effective in easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

Expensive Airplane

Probably the most expensive aeroplane ever constructed was recently built in England. It has a ceiling hand decorated, that cost \$5,000. Accommodations are for eight passengers and include a lounge and bridge table, electric kitchen and electric refrigerator. The total cost of the plane was \$150,000.

Ten Thousand Words On Postcard A German artist has written on an ordinary postcard a 10,000-word story of Colonel Lindbergh's flight across the Atlantic. It took three months to complete and was written with a hard pencil and without the use of a magnifying glass.

No child should be allowed to suffer an hour from worms when proper relief can be obtained in a simple but strong remedy—Mother Graves' Worm Expeller.

Golf Professor—Now, one important thing for me to tell you is always to keep your eye on your ball. Suspicious Niece—Oh, so that's the sort of club I've joined, is it?

Distance doesn't lend enchantment to one's views of the almighty dollar.

Made Fortune By Accident

Proprietor Of Roundabout Had Unusual Luck In Australia

Fortunes are not always the result of hard work and good judgment, but are sometimes made by accident, says Jack McLaren in writing upon the subject in the London Daily Chronicle. One such case occurred when a roundabout was landed at Thursday Island—a cosmopolitan pearling centre for the north coast of Australia—for transshipment to Japan. Finding there were a few days to wait, the proprietor decided to erect his apparatus and employ the interval by making it earn a little. Instead of a few days he stayed three years.

For the island was completely lacking in entertainments, and the colored population rushed the roundabout as they would have rushed nothing else, riding it twenty hours a day, men, women and children, often three to a horse. Fare-collectors had to be put on in relays.

So many were the repairs necessitated by the excessive working that before the end of the second year the whole affair had been twice completely rebuilt. Those three years gave the owner far more money than he had thought to earn in the whole of his life.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

Stay In Canada

Many People Who Contemplated Going To U.S. Have Changed Their Minds

At least 60 per cent. of the people who wanted to go to the United States two or three years ago and put themselves on the waiting list at the United States consulate for that purpose, now have changed their minds and are staying here, said F. M. Sauer, United States consul stationed at Toronto.

Discussing immigration in an interview, Mr. Sauer said that these people while waiting their turns on the quota list have found jobs in Canada. They now have no desire to migrate. Business conditions here have improved to such an extent that "We find an increasing proportion of those on the waiting lists do not turn up when they are notified their turn has come," he said.

UNIVERSITY OF MANITOBA

WINNIPEG

Offers, among others, the following Courses:
Through its FACULTY OF ARTS AND SCIENCE courses leading to the degrees of B.A. and M.A. and B.Sc. including B.Sc. (Pharm.) and M.Sc.

Telephone Operator Sounds Fire Siren When Bandit Invades Office

Although bound and gagged by a bandit who had invaded the office of the United Telephone Company at Vernal, Utah, recently, Mrs. Hazel Hackler, the night operator, succeeded in frustrating the holdup. It was about 3:20 o'clock on a Sunday morning that the bandit appeared, and as the operator reached for the switchboard to call the night marshal, he grabbed her by the throat and choked her and then bound and gagged her. Turning to the desk nearby, he picked up the cash box, but the operator succeeded in reaching with her foot the switch which sounds the fire siren, with the result that the bandit became frightened and made his escape. — Telephone Press Service.

Your Home Medicine Chest.—Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for treating rheumatic and sciatic pains, relieving sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Experiments in Cleveland show that electricity is the cause of life. So it seems we are nothing but a lot of current events.

Keep Minard's Liniment in the Medicine chest.

What are you doing for the community that is doing so much for you? You help some by buying what you need in your own home town.

Gum Dipped TO GIVE Most Miles Per Dollar

Whether it's the sudden stop, the quick get-away or the steady pull through heavy roads—your Firestone tires are on the job 100% insuring you safety, traction and economical performance.

Under the rugged non-skid tread is the Firestone safety carcass built of cords with every fibre insulated with rubber to eliminate internal friction. With such a combination, no wonder Firestone tires give "Most Miles Per Dollar." See your nearest Firestone Dealer.

Firestone TIRES

Recommended That Government Take Over Control Of Radio Broadcasting in Canada

Should the Dominion government take over the control and ownership of radio broadcasting in this country? What part should the provincial governments play in it? To what extent should advertising be allowed in broadcasting programmes? Would the listener be willing to pay \$3.00 a year license instead of \$1.00? Should attacks on religious and on religious leaders over the radio be prevented by law? These were some of the questions brought to the fore in the final public hearing of the royal commission on radio broadcasting held in Ottawa. Sir John Aldred presided and the other members of the commission, C. A. Bowman and Dr. R. Frigon were present.

In an opening statement the chairman outlined the investigations the commission had conducted in Great Britain, France and Germany. It had held sessions in 21 cities across Canada and received the co-operation of the governments of the various provinces. Everywhere the commission had been received with greatest cordiality.

Following the meeting, at which representations were submitted by the All-Canadian Congress of Labor and the Canadian Legion of the British Empire Service League, the commission will on once begin the preparation of its report. It will probably be available about the end of the month.

The All-Canadian Congress of Labor came out flatly for the government taking over the broadcasting stations, elimination of advertising from the programmes and making the listeners pay the upkeep by license. The brief presented by N. T. Burford, made the following recommendations:

That the present commission be continued or a similar organization be established vested with complete administrative control of broadcasting. The radio telegraph branch of the department of marine telegraphs be absorbed into a department of communications, having control of all electrical communication services (land telegraph, telephone, radio-telegraph, and radio-telephone), in Canada. All broadcasting stations be owned, controlled and operated by the Dominion government through the department of communications and the radio commission. The department of communications be authorized by legislation to make use of all patented apparatus at an arbitrated valuation for the national purpose of broadcasting.

An advisory council, widely representative of purely Canadian interests, be appointed to assist the Dominion in the collection of educational and other broadcast material and to ensure freedom of speech on questions of public interest.

The Canadian Legion wanted a broadcasting organization that would develop imperial patriotism and Canadian culture. J. A. MacIsaac said, in presenting the brief for that organization. Private ownership of Canadian broadcasting stations had demonstrated that they could not compete with the United States stations. Canadians were being overwhelmed with foreign programmes charged with propaganda.

The situation could be met, the Legion thought, by federal government ownership, and operation by a directorate, in which the provinces would have representation. The Canadian broadcasting service should lead the way in developing Canadian culture in all the arts. Every opportunity should be taken to exchange broadcasting programmes with those of the British Isles.

Actor (in ecstasy)—When I play I lose sense of everything about me, the audience disappears completely. Friend—Yes, you can't blame it much for that.

"You come home at 4 o'clock in the morning."
"Now, Mary, you know the clock is over ten minutes fast." Hummel, Hamburg.

W. N. U. 1794

Arrangements Completed

Delegates To World's Poultry Congress Will Visit Various Countries

F. C. Elford, president of the World's Poultry Science Association and chairman of the transportation and membership committee of the Canadian National Congress committee, jointly with the Hon. Harry R. Lewis, chairman of the transportation and membership committee of the United States congress committee, announces that the Canadian Pacific Steamship Company has been successful in securing the contract for the World's Poultry Congress trip and tours.

The delegates to the Congress from Canada and the United States will sail from Montreal, July 12, 1930, on a Duchess steamship and after attending the World's Poultry Congress at the Crystal Palace, in London, will visit England, Scotland, Northern Ireland, the Irish Free State, Wales, Holland, Denmark, Belgium, Germany, Switzerland, and France. Nearly a thousand delegates are expected to make the trip to the Congress.

Flour Production

Heavier Purchases Of Wheat On Part Of Milling Industry Is Reported

The improvement in the production of flour and other cereals by the milling industry of the Dominion this year reflects interest in heavier purchases on the part of the industry of wheat and coarse grains, says "Financial Service." To the end of April, being the first nine months of the current grain year, the producers had absorbed a total of 72,521,270 bushels of wheat, or nearly 6,000,000 bushels more than a year ago. Grinding of oats involved 8,838,173 bushels, or about the same volume as last year.

SMARTLY FLARED

Simple grown-up style for a junior, featuring Gaiety short sleeves, interesting neckline and circular flared skirt, joined to waist in scalloped outline. It is attractive made of gingham check in red and white. English broadcloth in white and blue dots, printed crepe de chine, shantung in blue green, linen in French blue, chambray in daffodil yellow, printed pique or printed dimity. Youngsters of 8, 10 and 12 years, in which sizes Style No. 526 is designed will be thrilled with the smart circular skirt. The 8-year size requires 2 yards of 40-inch material, with 3-yard of 27-inch contrasting. Price 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10-cents additional for a copy of our Fashion Magazine. It's just filled with delightful styles, including smart ensembles and cut designs for the kiddies.

Safety On the Farm

Guards and Protective Devices Are Needed On Farm Machinery

With the present fear of safety on highways and in factory, it is a little surprising that no more attention is being given to safety on the farm.

About this time of the year it is not unusual to read of farm boys and men being caught in the wheels of tractors or under the sharp edges of farming implements and being killed or injured.

In spite of the general attention that is being paid to safety devices, manufacturers seem to be giving less and less attention to guards and protective devices on machinery designed for use on the farm.

Few tractors are manufactured that provide adequate protection for the operator. The result is that farm accidents apparently are increasing. A sudden jolt against a stump or stone, and the operator is thrown under the sharp edges of disc or plow or harrow to be mangled and maimed.

It seems to be a little problem that needs the attention of the safety councils. Just as the toll of hands and arms taken by the corn shredder was reduced by safety devices, so accidents from the use of tractors may be reduced.

Chicago's New Colossus

Seventy-Five-Story Skyscraper Will Stand On Steel Legs

The description of the new 75-story skyscraper in Chicago would have confirmed the Erewhonians in the fear lest machines might become human.

The new structure will rise to a height of 1,022 feet. It will have 8,500,000 square feet of office space, and will stand on steel legs, between which the Illinois Central Railway will run its electric trains in and out of the city.

A skyscraper on legs seems more plausible as the famous beast of the Apocalypse than any of the customary claimants.

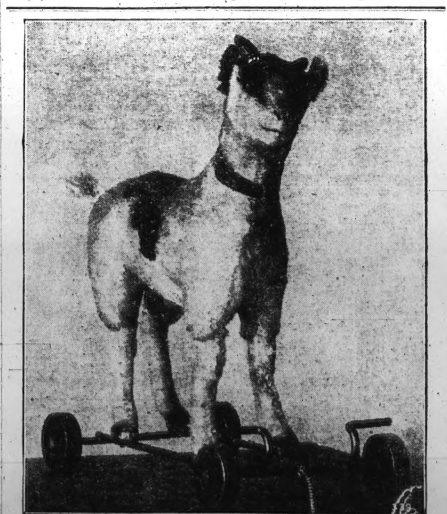

It is interesting to compare this metal quadruped to its it a poly-ped with the original Colossus, which had no more than 103 feet, and the ships that were alleged to pass between its legs would count for little at Lloyd's. This meagre object counted as one of the seven wonders of the world; and never dreamed of the day when it would find itself amalgamated with a greater tower of Babel.

Canada As Gold Producer

The value of gold production in Canada in 1928 was \$39,000,000, placing Canada third among the countries of the world in gold production. Ontario came first of the province with a production value of \$32,000,000, followed by British Columbia, Quebec, the Yukon, Manitoba, Alberta and Nova Scotia.

Not a New Idea

The camera has been used by the Topographical Survey, Department of the Interior, as a means of gathering topographical data in the field for mapping purposes, for the past forty years.

Getting the Railway's Goat

Every year there is a contest between the two big railway systems of Canada for what is called the "Railway Goat," the trophy awarded to the winner in the softball teams made up by the Canadian Pacific and Canadian National Railways. This year C.P.R. took it with a score of 18-17, figures which indicate how keenly the contest was fought out. The trophy is now dubbed—for at least a year—the C.N.R. goat and the animal will repose at headquarters of the C.P.R. until it is either lost or retained a the annual gift next year.

Bound To Succeed

The Experiences Of a Welsh Miner In Getting Settled In Canada

The experiences of William A. Pullman, a Welsh miner who, with his wife and nine children, has settled in Norfolk county, are to the approbation of this country and should be an encouragement to those in the Old Country who think of emigrating. Mr. Pullman was one of the party of miners who went to the prairie provinces last summer to help in the harvest, and he was much impressed by what he saw of Canada that he determined to return with his family. But there were many difficulties at home, for he was out of work and had no money.

Finally he arranged for emigration under the C.P.R. settlement plan, and the family have been placed on the farm of Egon Weir, in the township of Townsend. "There we have our home," said Mr. Pullman. "My boys and I have good positions, we are sure of three square meals a day, we are living in a wonderfully rich farming district, and, maybe when a year or so has passed we will take up our own farm and become independent and prosperous." His remarks have the right ring. We hope that his expectations will be realized. When Mr. J. H. Thomas comes on behalf of the new British government to investigate the problem of migration to Canada, he will find thousands like Mr. Pullman, who have determined to learn the ways of the country and to make their home here. The story of Mr. Pullman and many others will offset the complaints of a few of the miners who were in the west last summer, some of whom apparently went there with the intention of raising trouble. — Mail and Empire.

Bay Line Open In Fall

Will Not Be Able To Handle Passenger Traffic Until End Of October

The Hudson Bay Railway will probably not be in condition to handle passenger traffic before the end of October, it was stated recently at the Department of Railways and Canals. The celebration of opening the road by driving in the golden spike will, it is expected, be delayed until next spring.

The chief cause of delay has been the necessity of fighting bush fires. Difficulty in taking sand from frozen gravel pits this spring also slowed up the construction work.

Two thousand men are at work and eleven work trains are in operation. At least 1,000,000 yards of train fill are yet required to put the road in shape.

The completion of the temporary line on March 29 last, enabled the department to get in much of the materials and supplies required in connection with development work at Churchill. Two steamers are also being sent in by the department with further supplies for the terminal work, so that no time will be lost on the port development as a result of the delay in ballasting operations.

The area of the oceans of the globe is 139,295,000 square miles.

Rapid Development of Aeroplane Travel Is One of the Greatest Marvels of the Present Age

Government Farm Loan Board

Farmers Taking Advantage Of Farm Loan Facilities Become Shareholders On the Board

Five of the provinces of Canada, namely Alberta, British Columbia, Quebec, Nova Scotia, and New Brunswick, have so far taken advantage of the Canadian Farm Loan Board, a Dominion Government organization formed to extend long term mortgage credit to Canadian farmers.

The farmer taking advantage of the new farm loan facilities in Canada must subscribe to the capital stock of the Canadian Farm Loan Board to the extent of five per cent, of the amount borrowed by him; the provinces in which the Farm Loan Act comes into force will subscribe to the extent of five per cent of the total of loans in the province, while the Federal Government will also subscribe five per cent. Capital requirements of the Canadian Farm Loan Board, in addition to share capital, are provided for in authority given by the Dominion Government to issue bonds to an amount not exceeding twenty times the paid up capital stock subscribed by borrowers. Loans are to be made on first mortgages on farm lands.

A feature of the scheme is that each borrower becomes a shareholder in the board in company with the Dominion and Provincial Governments and will receive his share of profits of the operations. Loans are made only to settlers furnishing ample security.

Provincial boards have been appointed in these provinces with offices in the respective capital cities. All applications for loans in each province are first dealt with by the local boards following the inspection by the Canadian Farm Loan Board valuers of farm lands offered as security.

Interest of the farmers in the operation of the board is shown by the fact that in answer to inquiries there were recently sent out 1,200 application forms for loans in British Columbia and a similar number in Alberta, the two provinces that were the first to take advantage of the scheme. Proportionate interest is being shown in the other provinces.

Doom Of Mankind

American Educator Thinks African Tsetse Fly Will Be Cause

The long-heralded extermination of mankind by insects has found a new champion in Dr. Roderic H. Rae, director of visual education in Indianapolis public schools, but Dr. Rae goes a step further than his predecessors in the prophetic line by naming the insect that will be mankind's Waterloo.

"The African tsetse fly, which produces sleeping sickness, threatens mankind with devastation," Dr. Rae said.

"We know of no cure for its sting, which brings sleeping sickness from which victims do not recover." To show that the tsetse fly's deadly peril is imminent Dr. Rae pointed to a recent death at Crawfordville, Ind., from its sting.

A Lonely Family

Isolated on the northernmost point of Australia, the family of a telegrapher named Gunn, at Cape York station, claims to be the loneliest in the world. They are cut off from the rest of the continent by impenetrable bush and shark-infested waters. They have few visitors; they have seen only 20 persons in the last three years.

Alberta's Wireless Stations

A report concerning the eight wireless stations in Alberta and in the far north, operated by the department of national defence at Akivik, Herschel Islands, Dawson, Mayo, Fort Simpson, Fort Smith, Fort Resolution and Edmonton show the cost of construction of the eight stations to have been \$156,330 and that of annual operation \$98,258.

Anglo-American Contacts

America's most important contacts are with the British commonwealth of nations. Its first undertaking in foreign relations should be to make certain that the relations between the United States and the British commonwealth are on a basis of sound friendship—Kansas City Star.

The man of the hour is the one who was never heard of before today, and who will be forgotten tomorrow.

The time is approaching when Tennyson's "Vision" of the heavens filled with commerce, "pilots of the purple twilight dropping down with costly bales," will be a reality. The United States Army sends 206 planes into the air for manoeuvres. Mail air services cover the country. Air-rail lines to avoid flying by night are becoming a regular accommodation. The West Indies from Cuba to Trinidad are linked by airplanes. Shortly the system will be extended through South America to Buenos Aires.

There is a growing demand for planes of all sizes and speeds. Motorizing in the air will be the vogue when the safe machine sought by the Vlieggenheim Foundation has been designed. President Seth Low, of Roosevelt Field, says that 2,000 persons were taken up in the first two weeks of June, 95 per cent of them enjoying their first ride. Five of its pilots have flown planes 1,500,000 miles "without accident of any kind." He declares that a passenger in an improved machine driven by a licensed pilot is probably safer than he would be in a city taxi cab. Fear of the modern airplane is a state of mind. The accident rate for reputable air services is now too low to furnish an argument against the security of flying.

The world air tour of the De Silbours, husband and wife, confounds the doubter. Leaving London on September 1, in a small De Havilland Moth biplane, a veritable "flier" of the air, they flew across Europe, over North Africa to Asia Minor, and thence through Persia, India, Burma, and Siam to Indo-China. "We have done practically all our travelling in the last three years," says Vicomte de Silbours, "by plane, except for long journeys over water." Coming to the Pacific coast by steamship, they flew across the United States to New York. "The cost was less than that of travel by steamship, railway and automobile. To promote aviation they should publish an account of their adventure."

To realize the importance of aviation consider the news of one day, the twenty-fifth of June. Colonel Charles A. and Mrs. Lombard set off from Roosevelt Field on a transcontinental tour to inspect the terminals and landing fields of a transport company. Captain Kingsford Smith went up at Sydney, Australia, with three companions to fly to England. The four men, who left New York, May 27, arrived at Lima, A. Canadian Deputy Minister of Lands and Forests started from Toronto to fly 2,200 miles to take over Indian lands acquired by the Dominion Government. Johnson and Haugland spent their third day in the air in an attempt to break the endurance record. Captain R. G. Hoyt, U.S.A., was preparing to fly from Mitchell Field to San Francisco and back in thirty-six hours. — New York Times.

How Lake Was Named

"The Lumbake's Punch Bowl" is a mountain lake in Jasper Park, Alberta, which takes its name from the old days when traders and voyageurs of the Northwest Company met around its shores for the exchange of furs and goods and for the discussion of problems of the fur trade.

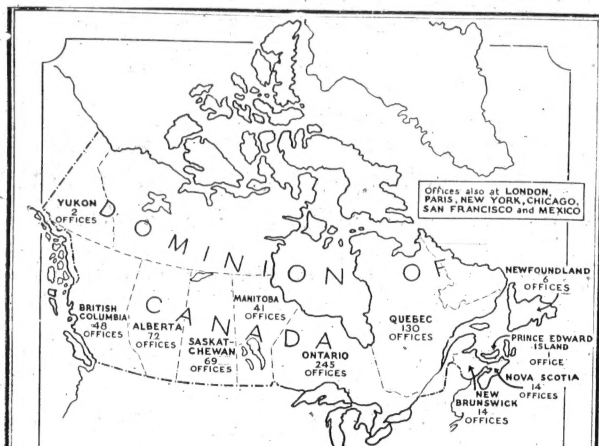

The Latest Luxury

A bathroom mounted on a motor chassis has just been completed by a British motor firm for the Nawah of Bhopal. The equipment comprises a full-size bath, dressing table, bed and chest of drawers, the water for the bath being heated by the exhaust from the engine of the car.

She: "Why, your heart sounds like a drum beating."
He: "Yes, that's the call to arms."

"Sir, I assure you that I make the proposal entirely out of love for your daughter. Any other thought is far from me."
"Yes—even the thought of maintaining yourself!" — Nagels Lustige Welt, Berlin.

THROUGHOUT CANADA

TO CANADIANS in every walk in life there is insured by the organization of the Bank of Montreal an adequate and dependable banking service, available through more than 600 Branches distributed in every province throughout the Dominion, from the Atlantic to the Pacific, and from the international boundary to the shores of Hudson Bay.

Each Branch, no matter where situated, has behind it the full resources of the whole organization, which has Capital and Reserves of over \$70,000,000, and Assets exceeding \$900,000,000.

Car Load of Live Muskrats Take Long Trip

1—Freight car that carried the consignment. 2—Large cage on board S. S. Beaverford where the rats had more space and liberty. 3—Specimen of muskrat enjoying a carrot.

There were a thousand of them, all alive and hungry, shipped by Canadian Pacific Express Company from Oak Lake, Manitoba to Hamburg Germany, via Canadian Pacific freighter Beaverford. Fluffy and friendly they went through the long trip away from their native marshes in good shape and were never so tired that they couldn't put away their carrot rations. It took fifty men several weeks to capture the requisite number without damage and by the use of special traps.

Two attendants in charge of the rodents were kept moving twelve hours a day each feeding and watering them. They travelled overland in specially constructed galvanized iron crates netted with wire and with an enclosed trough in each from which fresh water was available. On board the Beaverford, large cages were built as shown above in which the rats had more space to move around. This shipment which was made recently, constitutes a record for movement of muskrats or any other fur-bearing animal out of Canada overseas.

VIKING

At the Edmonton fair last week Steve C. Swift was awarded 4th place for flax; 1st for sheaf of spring wheat 1st for sheaf of barley, two rowed; 2nd for sheaf of oats white; 1st for sheaf of corn; 3rd for sheaf of timothy; 3rd for sheaf of field peas.

The Loades garage has now opened for business in their fine new premises on Main Street, south of the Kelly hardware. The building itself is a credit to the business section of the town, and improvements will be added from time to time until it will be one of the most modern along this line. Geo. Loades, well known old timer and pioneer, has associated with him, Hugh Little, who has had a wide experience in auto repair work. The staff includes the Loades brothers, who are acting as assistants. A full line of oil, gas and greases will be carried.

This district was visited by a high wind last Saturday afternoon which did considerable damage in the way of blowing down windmills, removing roofs off barns, and other buildings. At the hospital the ice house was blown over, and Mrs. Fonger's kitchen was moved several feet. On Monday evening a "bee" was held by a number of men who helped put these buildings back in place. Broken windows were quite numerous.

The Bruce stampede will be held on Friday of this week. It promises to be bigger and better than ever. A large crowd makes whoopee at this stampede annually, and if good weather prevails, the management is preparing to accommodate a record breaking crowd.

Mr. and Mrs. H. W. Hilliker and little daughter motored up from Stettler and spent the week end at the Basil Hilliker home. Harland has launched into the electrical business at Stettler and all join in wishing him success.

O. H. Bird, former assistant principal of schools here who has been teaching at Didsbury the past year, was a week-end visitor with friends in this community.

Mr. and Mrs. Steve Jones, Mr. and Mrs. Lee Harvey, and Miss Dorothy Jones have returned from a very pleasant visit to Cold Lake. Steve says the fish were biting good and he caught some real whoopees. Cold Lake is fast becoming one of the summer show places of Alberta.

"Did you sleep well?" asked the landlord of a Holden hotel when a travelling man came down to breakfast the other morning. "Oh, quite well, but I'm afraid I am not used to these three season beds." "Three season beds?" queried the landlord. "Yes, you know, no spring," was the reply.

NEIL PATTERSON AND HIS SCOTCH ENTERTAINERS
Will give a versatile Scotch Programme on the Third Afternoon of Chautauqua and a Prelude in the Evening.

CHAUTAUQUA WILL SOON BE HERE

First Evening of Chautauqua

"THE PATSY"

The opening night of Chautauqua, at Irma on August 6th will be the presentation of "The Patsy"—a real comedy drama, which has been called the "perfect Chautauqua play."

The story of "The Patsy" has to do with the younger daughter of a household, who is a combination of flapper and Cinderella. She is slighted by her mother, demeaned and bullied by her unprincipled, shrewd sister. Only her father truly loves, and can understand her; and since he was away most of the time as a travelling salesman, this wasn't a very extravagant comfort—hence the title of "Patsy."

"The Patsy" is three acts of comedy, romance, laughter and pathos, telling a most appealing love story, giving the Martin Erwin Players one of the finest acting opportunities ever enjoyed in Chautauqua plays.

Second Afternoon of Chautauqua

DR. HOWARD S. ROSS

Howard S. Ross, K.C., D.C.L., is a native of Nova Scotia, and practised law at Sydney, Nova Scotia, for ten years before moving to Montreal eighteen years ago, where he has since achieved distinction.

Dr. Ross has studied at Acadia, Dalhousie and Cornell Universities. He has been a student of economics for the past twenty years and has made a special study of the land and money question, government, industrial relations and method of voting, and assisting in founding the Proportional Representative Society of Canada. He was one of the founders of the Montreal Peoples Forum, and for some years acted as president and chairman of the Educational Committee of Montreal of the Brotherhood Federation made up of men's clubs in a number of churches and is a frequent speaker at such clubs.

"World Unrest—A Suggested Cure" is the subject of the lecture Dr. Ross has prepared. It will be helpful, inspiring and also most informing to farmers, when he, with the authority of an economist, explains co-operative marketing and its benefits.

He will also be delighted to answer any questions at the close of his lecture, and will count it a privilege to come into close personal contact with men and women of the Four-day Chautauqua towns. Audiences will find Dr. Ross witty, brilliant and fluent. There will not be a dull moment throughout the whole of his lecture.

Second Evening of Chautauqua

BIG FEATURE ON MUSIC DAY

Marguerite Austin and Her Dixie Broadcasters

This exceedingly popular Ladies' Orchestra, under the direction of Marguerite Austin who will act as Mistress of Ceremonies, will present on August 7th at Irma an ideal musical festival, featuring the finest numbers in orchestral music, interspersed with instrumental solos, duets and quartettes.

From the first item on their exceptional programme—these talented young ladies will be at ease with the audience, and extremely popular. They will reflect the joy of accomplishment and the enthusiasm of creative musicianship. Every number will delight all, and the whole programme is so well balanced that not a dull moment will be experienced by the audience.

Marguerite Austin, the gifted young English violinist and director will appear greatly to Western audiences. She will not be found lacking in anything that pertains to musical leadership, and will be generous in regard to the wishes of the audience in regard to encores.

Third Afternoon of Chautauqua

NEIL PATTERSON AND HIS SCOTCH LASSIES

Neil Patterson and his Scotch Lassies appearing at Irma on August 8th give an entirely Scotch programme so entertaining and original that audiences will forget the mediocre imitations which have frequently been presented throughout Western Canada.

Like Harry Lauder, Mr. Patterson writes songs and sings them in such a manner as to leave no doubt of his genius as a Scotch medium. He plays well-known Scotch tunes with bagpipes, and plays, by way of contrast, the softest music on the latest instrument, a common saw, and in addition dances the Highland Fling.

Miss Gladys Graham, a member of this company, has won over two hundred prizes for dancing, also for the best dressed lady Highlander. She was the solo dancer with the Princess Pats Band.

Helen Cuthbert Place has the voice, culture, appearance and personality for the rendering of Scotch songs.

There will be real variety, plenty of new songs, and with the old Scotch songs, and audiences can be assured of a programme of Scotch entertainment, the like of which has not been presented on this Chautauqua circuit.

Third Evening of Chautauqua

GRANVILLE JONES

Granville Jones, styled "The Spokesman of the Common People" will lecture on "The Philosophy of a Hill-Billy" at Irma on August 8th.

The man, his message, and his method are all out of the ordinary and wholly different from the usual lecture attraction. Granville Jones is one of the rare types of men of the indescribable sort—a human rail split out of some genealogical tree that is as yet uncatalogued, with the bark and sinners still clinging to him, but sound to the centre. He is a strange mixture of the conservative and liberal, a co-mingling of the blood of the dashing Cavalier and the stern Puritan.

"The Philosophy of a Hill-Billy" is wrought out of a life full of rich experiences. The richest wit and humor abound in his lecture; absolutely fresh and unstudied, Granville Jones' whole discourse is enlivened by flights of fine eloquence and enriched by the tenderest fancy and sentiment.

Fourth Afternoon of Chautauqua

Presenting a Programme of Mystery and Magic

A unique Kiddies' programme has been arranged for Chautauqua and will be presented on August 9th at Irma.

John Frye ranks among the foremost magicians of the continent. His programme has great variety. All his attractions are new, unique and novel. They will be found to be the last word in mystery and magic.

Throughout the programme John Frye will keep his audience in fits of laughter through the medium of his subtle humor.

One of his finest attractions is the piecing together of old patches of cloth and making beautiful pictures.

Mr. Frye has a talented young lady assistant, who is an accomplished pianist. She will lend charm and variety to this attractive programme.

Fourth Evening of Chautauqua

"SMILIN' THRU"

"Smilin' Thru" is an emotional classic of the modern stage and surpassing rich in heart interest, will be staged at Irma on August 9th by The Canadian Players under the direction of Ralph Martin Erwin.

This three act play by Allan Langdon Martin, is a fantastic comedy with a wealth of human appeal. Even Norma Talmadge is credited with her finest emotional artistry in the photo-play which was released by the First National.

There is an abundance of humor in

SPLENDID PICNIC AT AVONDALE

Avondale joint picnic held in Passchendale district on July 17th with good weather and a large crowd all in picnic humor, was a decided success. Lots of refreshments and plenty of competition in the sports program held the attention of the crowd.

A delicious lunch was served Cafeteria style at 6 o'clock to which all joined in and a speech by our Prov. U.F.W.A. President Mrs. Warr added greatly to the pleasure of all. Mr. Aitken, director of the U.F.A. for Battle River was to have been present to speak but lost his way and did not arrive. The autograph quilt auctioned, went to Walter Gray for the sum of \$10.00. The Junior work, a center piece to Mrs. Warr for \$4.00, a 5 o'clock tea cloth and napkins to Mrs. Carrington for \$1.50.

Mr. Race, the minister at this mission for the summer won the doll naming contest and later gave it to the Juniors to be auctioned. Little Miss Golding was the happiest child there when she handed the auctioneer \$1.75 and received in return a sleeping, crying, new born baby doll with an outfit of clothing that permitted her dressing and undressing it as she desired.

The guessing contest on peanuts was won by Mrs. Wm. Dalton, 1st prize a box of chocolates, 2nd by Mr. Layton, the 2 quarts of peanuts.

Orbendale orchestra put the pep in the light fantastic and the only complaint heard was the crowd was so large there was not room to dance.

The U.F.A., U.F.W.A., and Juniors wish to thank Mrs. Slipper for the doll's wardrobe. Mr. Love, editor of the Irma Times for printing notices in the news columns of the several issues preceding the picnic. Mr. J. D. Dalton, for the use of picnic grounds and lumber, and each and everyone who helped to make our first U.F.A. picnic a success.

Mr. Race, Billie Whitley, Chas. Anderson and Ellsworth Allen went to Clear Lake on Monday to spend the there under the management of Gordon Lapp. Mr. Race is returning on Saturday to have charge of the services at his appointments on Sunday, the boys will be returning the Monday following.

Mrs. Ashton, of Fort Sask., arrived on Thursday to spend a week with Mrs. Haun.

SIXTEEN WELLS PRODUCE GAS

(From Viking News)
Giving an open flow of 8,418,800 cubic feet per day, No. 16 well drilled by the Northwestern Utilities company, limited, in the Viking field came in as a producer about 6 o'clock Wednesday evening. The well was at once capped and placed in readiness for future supply demands.

Julian Garrett, manager of the gas company, was present, along with other officials including C. H. Spencer, superintendent; E. D. McQuarrie and Mrs. McQuarrie, and F. Nelson, field engineer.

Drilling at this well had been carried on for 42 days under the supervision of G. W. Green, field superintendent for the company. The gas sand was struck at a depth of 2,137 feet while the bit penetrated it for 13 feet. Drilling was stopped when the 2'42 foot level was reached and it was then decided to attempt to bring in the well into production. It proved to be a good producer, having a capacity higher than the average in this field.

Drilling is being proceeded with at well No. 17 and it is likely that it will be brought in from 16 to 20 days.

the play, but it is one of the truest-to-life comedies ever written. The prologue explains the play's name. In it two figures—the mother of the boy and the mother of the girl—are shown smiling through and wishing they might help the man to see and understand. They fade out of action and the play begins. Each character in this play stands out as a great human etching, and the heart interest is grippingly sustained throughout this entire emotional drama. The final scene in "Smilin' Thru" is altogether unique and extraordinary.

"Heard on the street: 'What is that young son of yours doing?' 'Why, he's a girl scout.' 'You mean a boy scout?' 'No, he's always out scouting for girls.'"

For Baby's Bath

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft soothing oils in Baby's Own Soap make it especially suitable for babies, and its clinging fragrance reminds one of the roses of France which help to inspire it.

"Is best for you and Baby too" 17-10

WORLD HAPPENINGS BRIEFLY TOLD

Mrs. S. H. Logan, wife of the Toronto manager of the Bank of Commerce, Toronto, was instantly killed in an automobile accident near Bramford.

Expanding trade in the New Westminster area is seen in the recent shipment of a large consignment of lupine from the local factory and canned milk from the Fraser Valley to the British West Indies market.

Miss Susan Lawrence, parliamentary secretary to the British Ministry of Health, has appointed Miss Ellen Wilkinson, another Labor member of parliament, to be her parliamentary private secretary.

The next quinquennial conference of the International Council of Nurses will be held in 1935 in Paris, France and Brussels, Belgium. It was decided at the Grand Council meeting in Montreal.

As a "mark of respect to His Majesty King George," Ontario's provincial highways next autumn will cease to bear that designation, and will become officially known as "the King's Highway," if projected legislation is adopted.

Speed trials are being made by the German state railway. An experimental run from Hamburg to Nuremberg on the Hamburg-Berlin route, with an empty express train of fifteen steel carriages, attained a speed of approximately 150 miles an hour.

Juan Spivich, a laborer, of Duquesne, dropped dead as he lowered his demolition to reach for five pesos, \$2.50, which he had won by drinking 18 litres, more than 10 quarts of wine, without lowering his unyielding drinking vessel.

A drastic lowering in the exportation of alcoholic beverages from Canada to the United States through the port of Windsor last month as compared with June, 1928, was announced by the U.S. treasury, which figures a decrease of 357,136 gallons.

Honor Foundation Of Rhodes Scholarships

Great Gathering Of Scholars Celebrated Twenty-Fifth Anniversary

A great gathering of scholars from the British Empire, the United States and Germany, recently assembled in the new Rhine house to celebrate the twenty-fifth anniversary of the famous Rhodes scholarships at Oxford University.

The Prince of Wales, former Premier Stanley Baldwin and many prominent persons were present at a dinner in honor of the occasion.

Mr. Baldwin, who is one of the Rhodes trustees, made the important announcement that for the first time since Germans were excluded from the scholarships during the Great War, German scholars would again be admitted as Rhodes scholars. He said the trustees, subject to the consent of the university authorities, would establish two German scholarships annually, tenable for two years only.

Cannot Be Exported

Many of the finest varieties of bananas cannot be exported on account of their tender skin, among them being the "lady finger" banana of the Canary Island, which is only about three inches long.

The Phoenicians were the greatest navigators of their time, their ships carrying the treasures to all the Mediterranean countries and as far as the British Isles, where they came in search of tin.

Men's Dress Of The Future

Weird Costumes Are Described That May Be Worn A Hundred Years

Somewhat fantastic is the prediction of a New York clothing designer of the character of the dress for men one hundred years from now. He says legs will be bare from the ankles to the knee and that wide skirts will take the place of trousers for "everyday" business wear. Coats will disappear and be replaced by a combination jacket and shirt open at the neck like a polo shirt. Bright sandals will send shoes into the discard.

The only explanation of this nightmare is that men must be getting jealous of the sensuous manner in which women are dressing in this day and generation. But, as a matter of fact, anything can happen in a hundred years. What most of us forget is that styles for men are just as likely to change as anything else. In the earlier days our forefathers dressed in a fashion which, if worn on the streets of Philadelphia today, would attract universal attention. Wigs with pigstails, silk and satin knee breeches, gay stockings and low, buckled shoes were always in order for the well-dressed man.

It would not be so revolutionary if we were to go back to the dress, as well as to the principles, of the men of 1776. Philadelphia to-morrow.

Rubber From Weeds

Edison Experimented With Many Varieties Before He Was

Mr. Thomas A. Edison has discovered a substitute for rubber. He long ago found that there could be no substitute for the rubber tree as the source of rubber, but he has discovered a weed—after experimenting with 15,000 varieties—which will produce a latex fluid from which a workable substitute for rubber can be extracted.

The weed can be mowed like wheat. It was asserted by Mr. Edison's representative, and does not require replanting anew every year, being a perennial. Mr. Edison has of late been engaged in experiments with the object of making a machine which will separate the rubber substitute from other components of the fluid, but he has so far not been successful in this direction.

IT'S ONE-PRICE

A cut one-piece dress with tucks from neck to hem with brief kimono sleeves, and tiny turn-over collar. To make it, practically means about four seams to join. Style No. 553 that can be had in sizes 2, 4 and 6 years, takes but 1 1/2 yards of 39-inch material in the four-year size. Red and white dotted dimity with white organdie collar, blue and white checked ganghan with white pique collar, sprigged dimity, yellow chambray, pink crepe de chine, pale blue batiste, dotted Swiss in French blue and white, orchid linen and printed pique in red and white are attractive suggestions. Pattern price 20 cents in stamps or coin (coin is preferred). Wrap cut carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Fashion Magazine. It's just filled with delightful styles, including smart ensembles and cut designs for the kiddies.

South Africa's Problem

White Man Incapable Of Skilled Work Is Cited As Cause

By the Colour Bar Act, it is an offence for a native to undertake skilled work. Skilled jobs are, therefore, regarded as "Kafirs' work," and no white man would dream of undertaking them. The result is that, if the European is incapable of the work, he cannot enter the ranks and becomes a "poor white," a social parasite, a loafer hanging on to the skirts of white society, a decadent slowly sinking lower into the mire of degradation, a feeble, hopeless figure. One white man in every twelve in South Africa is in this category today! It is the greatest social problem with which the country has to deal. This is the price they are paying for the introduction of slavery two centuries ago, and for the maintenance ever since of the "slave-owners' attitude towards manual toil. So long as manual labour is regarded as degrading and as "Kafirs' work" with which no white man must soil his hands, just so long will industrial prosperity delay its coming.

RED HOT JULY DAYS
HARD ON THE BABY

July, the month of oppressive heat, high days, and scorching nights, is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or if they occur, on suddenly, to fight them. No other medicine is of such aid to mothers during the hot summer as is Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaints. Or if the trouble does come on suddenly, will banish it. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Recipes For This Week

(By Betty Barclay)

LEMON CRUMBLE PUDDING

- 2 cups milk.
- 2 cups bread crumbs.
- 1 teaspoon salt.
- 1 cup sugar.
- 1 egg.
- Grated rind 1 lemon.
- 3 tablespoons lemon juice.
- 1 tablespoon melted butter.

Pour the milk over fine dry bread crumbs; add salt and sugar; well-beaten egg, grated lemon rind, lemon juice and melted butter. Pour in buttered baking dish and bake in a slow oven (300 degrees) 40 minutes. Serve with creamy pudding sauce made as follows:

- 1 egg.
 - 1/2 cup powdered sugar.
 - 1 cup cream.
 - 2 tablespoons orange juice.
 - 1 tablespoon lemon juice.
- Beat egg until light; beat in powdered sugar. Add cream whipped until stiff and fruit juices. Serve ice cold.

RICE AND FISH LOAF

- 1 package lemon flavored gelatin.
- 1 cup boiling water.
- 1/2 cup cold water.
- 1/2 cup chili sauce.
- 1 teaspoon salt.
- 1 cup salmon, tuna, or other cooked fish.
- 2 cups cold cooked rice.
- 1 green pepper, or 6 stuffed olives, chopped.
- 1 small onion, finely chopped.

Dissolve gelatin in boiling water. Add cold water, chili sauce, and salt. Chill. When slightly thickened, fold in remaining ingredients. Turn into loaf pan. Chill until firm. Unmold. Slice and serve with a tart sauce. Serves 8.

Custom Still Survives

In some of the small villages of Great Britain it is said, the ministers still adhere to the age old custom of reading each verse of the hymns before the congregation sings it. This custom is a survival from the time when the majority of the congregation could not read, it is strange that it should still survive after so many years of compulsory education.

The island of Puka, in the South Sea, is 80 miles from its nearest neighbor. Its inhabitants at present consist of 300 natives and one white man.

At Queen Victoria's birth there were five persons between her and the throne.

Evidences of the existence of the harp in prehistoric times have been found.

Church Of England Sends British Land-Owner To Jail Without Trial

The British public has just found a new and unusual sensation in what the press characterizes as an amazing case involving the right of the Church of England in some instances to send people to prison without recourse to the ordinary civil courts.

John Stevens, a wealthy Cambridge land owner, is now in Bedford jail, where he was sent by the ecclesiastical court at Ely, while a force of lawyers is trying to get him out. Stevens refused to repair the church of St. Edmund, standing on the property he recently bought. Under the terms of the old deed he was said to be bound to repair the church; but he maintained this clause had lapsed through disuse.

The ecclesiastical court thereupon imprisoned Stevens under a writ passed during the reign of William IV, giving the church such power in civil cases relating to a church or church property. His relatives repaired the church immediately. But Stevens cannot get out of prison until the church court meets and considers a petition for his release.

Trade Within Empire

If we are to sell more to Australia we must be prepared to buy more from her. Trade cannot be built up on a selfish basis. Under present conditions, Canada has no market over her sister Dominion of trade to one in dollars. But if we purchase many of the articles from Australia which we now purchase from the United States, the trading exchange between this country and the Antipodes soon would grow to considerable proportions. The mutual advantage of both these parts of the Empire—Victoria Times.

"My papa's a bookkeeper," said little Edwin, proudly.
"Yes, I know it," replied small Ruth. "He borrowed a book from my father six months ago and hasn't returned it."

To Tour Canada

Party Of British Merchants Will Visit Dominion This Summer

British merchants are planning a visit to the Dominion en masse, arranging their schedule so that the combined business and pleasure tour will coincide with the celebration of Empire year at the Canadian National Exhibition at Toronto. Information just received by C.N.E. officials from Stanley F. Talbot, general secretary of the Incorporated Sales Managers' Association of the United Kingdom, gives details of the trip.

It was the Prince of Wales, always one of the Dominion's most enthusiastic and outspoken supporters, who gave the business men of Great Britain the idea. More than a year ago he urged that such tours be undertaken, both by individuals and groups.

"Canada, as I see her today," he stated in one address, "as all of us must see her, is on the threshold of one of the most astonishing eras of expansion and development the world has ever known."

After the Canadian National Exhibition, it is the intention to see as many important distributing centres throughout the country as time permits.

Directs Auto By Radio

Aeroplane Several Thousand Feet Up In The Air Controls Auto

A large number of persons watched with amazement a "plane several thousand feet in the air control, by radio, an automobile on the Leaside flying field at Toronto. The car, without passengers, moved around the field, apparently operating its own starter, steering wheel and brakes and occasionally sounding the horn at the evident approach of obstacles.

Miss Gloria Hall, Los Angeles aviatrix, operated the radio-control key board in the "plane."

The soil of Serbia is sometimes frozen to a depth of sixty-three feet.

Appreciation Of Spain

Officers Of British Aircraft Carrier "Eagle" Decorated By Spanish Premier

Premier Don Rivero, of Spain, summoned the officers of British aircraft carrier "Eagle," to be decorated with the Spanish Cross of Merit for saving Commander Ramon Franco and his three companions from the mid-Atlantic. The ceremony took place at Madrid.

It was Spain's crowning gesture of appreciation for the great service the Britishers had done to the Spanish government in rescuing the fliers. As soon as the full list of the members of the crew of the "Eagle" is received from the British admiralty the sailors and marines of the rescuing ship also will be awarded medals.

The "Eagle" itself will be decorated with the aerial medal. This ceremony will take place either at Algiers or Gibraltar, as soon as the British admiralty finds it convenient to send the ship there for that purpose.

Menace To Pine Trees

"Bluster Rust," a fungus disease, brought to Canada from Europe on white pine nursery stock about twenty years ago, is now a serious menace to the White Pine trees of this country, according to the Dominion Botanist.

An exchange says: Three H's are responsible for so many automobile accidents—Hooch, Hugging, and Haste.

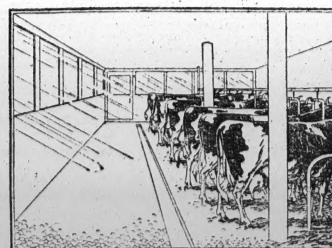

One of the impressive things of modern life is to stand and watch a traffic policeman dam the flow of traffic. And hear the pedestrian.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

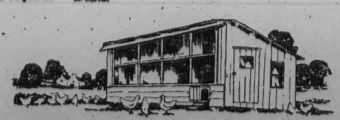

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

In fact, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

The Singing Fool

By HUBERT DAIL
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Marcus, the famous Broadway producer, heads a party of four that visits Blackie Joe's night club in downtown New York. At Stone, Blackie's chief comedian and singing partner, takes the order for beer. Grace, the cigarette girl, is in love with Al, but he doesn't know it. As he returns with the beer he encounters Molly, the ballad singer, whom he loves ardently. He begs her to sing a song he has just written. Molly is disdainful toward him. Blackie Joe tells Molly that the great Marcus is outside and she makes him promise to introduce her. When Al rushes back to her dressing room she refuses even to read his song. He sees it on the floor under her feet!

CHAPTER IV.

Al could scarcely believe his eyes—his song, the heart-throb ballad he had poured forth from the depths of his soul, lying on the floor unnoticed, under Molly's sharp and careless heel!

He raised his gaze as he felt Molly about to sweep by him. Scarcely knowing what he was doing, he seized the angry girl in his arms, pulling her close to him, staring beseechingly into her eyes. She tried to pull away, but his grip of steel held her.

"Molly!" he pleaded. "Didn't you even read it?"

Again Molly tried to escape, succeeding this time. If she had been angry before she was blazing now. "How dare you try to stop me? I told you I had important business out in front tonight! You bother some idiot—you've almost ruined my make-up!"

She returned to her dressing table and began dusting her arms and shoulders with powder. On the lapels and sleeves of Al's coat were the heavy white marks of the powder. But he did not notice them, nor did he hear her words. Slowly he stooped over, like a man in a dream, picking up his song. He saw the sharp print of Molly's steel-tipped heel across the paper, and he stared at it for a long moment. It was as if that little heel had cut into his heart.

Again she headed for the door, reaching the corridor. Then she realized that Al was following her and she turned about, determined to settle him once and for all. Her

blue eyes were glittering and her voice had a rasping, harsh quality.

"Al Stone, get this through your head. I won't have anything to do with you. I'm not going to marry you or any other waiter!"

With vitriolic sarcasm she emphasized the word "waiter." Then with a flirt of her skirts she disappeared down the corridor. A moment later she was in the main room and had forgotten Al entirely. For she saw the figure of Marcus, czar of the Broadway revues, with his party at the risingside table across the dance floor.

At once her manner and expression changed. The calculating gleam in her eyes was masked by a soft, bright, friendly look; her body, which had been rigid with anger a moment before, relaxed so that she moved toward the Marcus table with an easy, sensuous walk. She was a very pretty girl at that moment. No one would have believed her features had been distorted by rage just a moment before; no one would have thought that she could treat a man as cruelly as she had just treated Al. But Molly was burning with ambition and she saw in Al only a love-maniac who would be a hindrance to her in her climb toward fame. So she treated him ruthlessly, not because she disliked him, but because he got in her way. Her feeling toward him was neither love nor hate, it was just indifference. If he had been rich, powerful or socially distinguished, Molly would have played up to him like a soft and affectionate kitten. But he wasn't.

Meanwhile, there sat Marcus, fifty feet away, chatting amiably with his companions and occasionally sending a bored glance toward the cabaret where that was in progress. The rectangular floor a few feet from his table. Molly studied his face and began to plan her course of action.

"What shall I do to make him like me," she whispered softly to herself. "Baby stuff or a more sophisticated line? He looks so sophisticated himself, so maybe the baby stuff will go better. Remember, Molly darling, that man can make you famous on Broadway if he likes you. But where—"

She cut short her unspoken soliloquy to look about for Blackie Joe, who had promised to introduce her to Marcus. Finally she located him, talking to some customers. She moved over to his side.

"Blackie!" He looked up. "You know—" she said significantly. "I'd like to meet him before I do my songs. Then he'll be more interested in watching my stuff."

"Wise little girl," said Blackie, patting her on the arm. "Yes, I know. I'll give you a knockdown right now."

He took her by the hand and led her toward the Marcus table. She saw Marcus's eyes rise to meet hers, then Marcus himself was standing in response to Blackie's genial introduction. As if from a distance she heard Blackie's voice: "Mr. Marcus, this is one of my most talented performers. Molly may I present the most celebrated producer and picker of pretty girls on Broadway?"

Marcus smiled and courteously made way for Molly to sit down beside him. He knew that was what the girl wanted and he was willing to be polite about it for Blackie's sake. But to say that he was interested in Molly would be rank exaggeration. He had too many superbly beautiful girls in his revue to be impressed by one who was merely pretty.

Nevertheless, he addressed a few well-remembered remarks to Blackie's singer and Molly, priding herself on her conversational gifts, came back in the most animated manner. But in a moment Marcus turned from her as the young actress on the other side of him engaged his attention.

Molly studied this girl closely, her gleaming jewels, her lovely little baby-doll face.

"There is a girl," thought Molly, "that Marcus is making famous. That Marcus is making money, yet she's no prettier than I am. This man can put me on the map, too."

But at the moment it certainly appeared as if Marcus hadn't the slightest intention of helping Molly. In fact it seemed as if he had forgotten her presence entirely.

Meanwhile, the singing waiter, whose love she had flouted, paced the corridor leading to Molly's dressing room. For a moment he stopped and stared at the crumpled song-sheet he held in his hand, his face the picture of dejection. Outside the syncopated rhythms from the jazz band and the staccato beats of a pair of tap dancers in action, but the only sound that echoed in Al's ears came from Molly's parting words. They seemed to reverberate through his whole body, like the dirge to his hopes and love. At last he realized completely that his chance of winning Molly was utterly lost.

Dull despair crept over him and the sheet of music slipped from his unresisting hands. Mechanically, and without knowing what he was doing, he stooped and picked it up. Then the title of the song across the top caught his eye—"Always."

"Always"—what a fool he was to write a song like that, fondly believing it would touch her heart and that she would share his enthusiasm for it! Swiftly he crumpled the song-sheet in his fist, as if to wipe the memory of its creation.

In the distance, from a corner of the main room, Grace, the cigarette girl, was watching him sympathetically and intently. She had seen him talking to Molly. Vaguely she sensed the cause of his despair.

But Grace, loving him generously, thought not of herself nor of Molly, but only of some way to help Al in this time of trouble. Al, the gay, wise-cracking, singing waiter, had lost his pep and energy; Al, of the kindly, handsome mouth, of the deep, warm, glowing brown eyes; Al, who had been her best friend at Blackie Joe's, was suffering. She knew he didn't love her and considered her only a sweet child, but that didn't matter.

Giving a quick glance around, Grace stepped into the corridor and approached him on tiptoe. Al felt a light touch on his sleeve and heard a soft, sympathetic voice at his shoulder. He gave a start, thinking in a mad burst of hope that it might be Molly. Then he looked down into Grace's eyes.

"What's the matter, Al?" (To Be Continued.)

The Value Of Power

Lower the Price and It Becomes More Valuable

Paradoxical as it may seem the measure of the value of power is its cheapness. Low priced power diminishes the cost of production of manufactured goods both for home consumption and export and in some industries, such as pulp and paper, electro-chemical, mining, smelting, etc., it is the controlling factor in location. A conspicuous example is the erection of the world's largest aluminum works at the great water powers of the Saguenay river in Quebec.

Superstitious About the Moon

In the Middle East exposure to the rays of the moon is said to cause nightmare as well as headaches, and in the Far East a morning "chick head" is added to these symptoms. In Burma there is a belief that when the insane suffer from mental storms, these correspond to the phases of the moon.

A New Feature

"Solarium cars" with the rear portion enclosed in "vita glass" admitting seventy-five per cent. of the ultra-violet rays of the sun are a feature of the latest passenger carrying equipment of the Canada National Railways.

Cramps Diarrhoea Pains in Stomach

Mr. Roy Lighthall, Milford, Ont., writes: "I became very ill last night. I had cramps, diarrhoea, and severe pains in my stomach."

"I purchased a bottle of DeFowler's Ext.-of-Wild-Strawberry and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since."

"I cannot praise 'The Extract' too highly, and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly. 'My brother had the same experience with it as I had.' 'Dr. DeFowler's' has been on the market for the past 84 years; you don't experiment when you buy it. Price 50 cents a bottle at all dealers; put up only by The T. Milburn Co., Ltd., Toronto, Ont."

How School Teacher Gained 18 Pounds and New Energy

"I am a public school instructor," writes Mr. Linus L. Clark, "and from my study I learned that Ironized Yeast was exactly what I needed to put me in shape. I took only two bottles and gained 18 lbs. More than that, Ironized Yeast brought more energy, greater endurance and more proved complexion. You can believe letters like this. Thousands who were doubtful at first wrote they gained 5 to 20 pounds often in 3 weeks. 'Giddy' limbs changed to graceful roundness. Skin clears. Tired feeling vanishes. Only when Yeast is Ironized is it more effective, for Iron is needed to bring out the weight-building and strengthening values of Yeast. Pleasant tablets in a handy bottle. Safe for everybody. Never cause gas or bloating, no harmful drugs. Go to any druggist today and get a full size treatment of Ironized Yeast. If after this generous trial you are not delighted, get your money back. Druggist or manufacturer. If inconvenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Fort Erie, Ont. Desk 425-BV."

Making Good Progress

Irish Free State Can Now Challenge Farm Products Of Other Nations

Canadians are in a position to congratulate the citizens of the Irish Free State. The latter have brought their financial year to a close with a surplus of \$70,000, and no fresh tax is contemplated for the coming year. The Government, moreover, is making determined efforts to attract more trade. A steam yacht recently was lying at anchor in the Clyde with a remarkable cargo aboard. From Ireland, the ship carried the best known commodities produced on Irish soil. The vessel also paid visits to Liverpool and Cardiff to show the people there what Ireland can sell them.

This is, in accord with the progressive movement begun last year to popularize home-grown commodities from Ireland, and the efforts to raise and standardize quality and to increase output are being attended with distinct success. There was room for improvement, as the Ministry admitted, but the strict regulations laid down by the Government have been productive of highly beneficial results.

The former careless, haphazard methods of the farmer are today largely a thing of the past. Moreover, the raising of stock standard has been followed by improvements in the quantity of produce. Today the Free State is challenging with confidence the farm produce of other nations so far as ham, butter, eggs and bacon are concerned. The floating exhibition now in British waters will help to drive this fact home. It is not a new idea, but it is one well worth copying when opportunity arises.

Defeated By Narrow Margin

Canada's Diamond Sculls Winner Beaten By Holland Oarsman

L. Gunther, of Holland, is this year's winner of the Diamond Sculls, emblematic of the amateur rowing championship of the world. In the finals, over the famed course at Henley-on-Thames, England, he defeated Joe Wright, Jr., of Toronto, Canada's premier oarsman, in one of the closest and most gruelling encounters this famous event has yet evoked.

Wright was the Diamond Sculls winner last year, and he has come within an ace of winning the great award, three years in succession. In 1927 he was robbed of the honor by a "fluke," this year he was beaten by only a yard, and after there had been exceptionally severe demands upon his strength and stamina in preliminary contests. He has established himself as one of the greatest oarsmen this country has produced, ranking with Hanlan and Scholes, also of Toronto. Still in his early twenties, he has a good chance to win the Sculls again.

Britain leads the world in the fame of its sculling events but every community in this country which has a suitable body of water should endeavor to foster sports. It is one of the greatest of sports—wholesome, fascinating and altogether worthwhile.—Regina Daily Post.

Historic Flag For Canada

It was announced that one of the flags from the centopatch in Whitehall will be sent to Canada in Earl Jellicoe's name, and will be replaced on the centopatch by another. The intention is to press for a flag which has flown on the London centopatch for each of the Dominions.

Milward's Liniment for Rheumatism

Little Helps For This Week

"I will teach you the good and the right way—1 Samuel xii. 23.

Live to do good; but not with thought to win. From man return of any kindness done.

Do naught but good; for such the noble strife.

If virtue is, 'gainst wrong to venture love.

And for thy foe devote a brother's life.

Content to wait the recompense above.

Brave for the truth, to fiercest insults meek.

In mercy strong, in vengeance only weak.

—G. W. Bethune.

He began to talk very gently about different sorts of kindness, and that if I wished to be kind like a Christian, I must be kind without hoping for any reward, whether gratitude or anything else. He told me that the best followers of Jesus in all times had tried hard to do every thing, however small, for God's sake, and to put themselves away.—Julian Horatia Ewing.

New Canadian Record

Official Altitude Record Of 20,000 Feet Made By Special Pilot

Captain J. D. Parkinson, special pilot of the Curtiss-Reid Flying Services, Ltd., Montreal, established an official Canadian altitude record of 20,000 feet in a cabin monoplane. He carried a sealed barograph.

The previous Canadian record was 18,000 feet, established by Captain Leigh Caporin in a Moth plane.

Captain Parkinson's flight occupied one hour and 28 minutes, of which one hour and two minutes was occupied in the climb upwards.

Corns cannot exist when Hollaway's Corn Remover is applied to them, because it goes to the root and kills the growth.

Nerve Case: "Doctor, I often feel like killing—myself. What shall I do?" Doctor: "Leave it to me."

Jasper Park, Alberta, with an area of 5,300 square miles, is the largest park in North-America.

When Food Sours

About two hours after eating many people suffer from indigestion, stomachache and flatulence. It is the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Par-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Par-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

Irma, Alberta

Main Street

Miss M. Cook, niece of Mrs. Gerson has been visiting her aunt at Irma.

Miss Clara King of Edmonton is visiting with her brother, Mr. W. H. King, at Irma.

Mr. Bert Stimson has accepted a position as engineer at the Beth Wa oil well northwest of Wainwright.

Mr. and Mrs. Sid Bouch and Mrs. Elmer Swanson of Carstairs are visiting the Petersons for a week or ten days.

Mr. F. Peterson is in Southern Alberta collecting clovers and grasses for the Provincial Government Publicity Department.

Mr. and Mrs. Reeds have returned after spending several weeks in Edmonton.

The Ladies Aid met at the home of Mrs. G.A. Tripp Thursday afternoon.

Mr. Macintosh, former teacher in Education Point school spent the week end with friends at Irma.

Mr. and Mrs. McRae returned Sunday after taking in the Edmonton Fair.

A nice crowd of farmers turned out Tuesday afternoon to attend the Alberta Wheat Pool Meeting.

Mrs. Seton and Charles are visiting in Irma as the guests of Mr. and Mrs. Watkinson.

Thos. G. Dark, Eyesight Specialist will be at the Dr. Store on Friday, Aug. 9th from 4 to 6 P.M. Eyes tested, glasses fitted and Guaranteed.

Miss Maud Smallwood, who is nursing in the Royal Alexandra Hospital in Edmonton underwent an operation on her tonsils last Friday and returned to Irma with her parents Sunday to spend a few days before resuming her position in the Hospital.

Last Saturday afternoon the Irma district was visited by one of the worst wind storms that has worked up for some years. Several prairie fires were started and Gordon Fenton lost a barn which happened to be in the way of one of the fires that got away on his land. In some parts the sand blew so hard that it cut the grain as clean as if it had been mowed.

Mr. K. S. Grant, who has held the position of teller at the local branch of the Bank of Montreal has been promoted to the position of accountant in the Ponoka branch of the Bank. Mr. Grant has been in the Irma branch for over two years during which time he has made a host of friends who are glad to hear of his promotion. Mr. Murray of Lacombe has arrived to fill the position made vacant by Mr. Grant's promotion.

Mr. Herman Young of Centralia, Washington, U. S. A. was a visitor in our midst last week.

Mr. Young was one of the early settlers of the Irma district, coming here in the spring of 1906 but returned to Centralia where he is a very prominent member of the community. He notes a vast improvement in this country since the early days and also in the last 5 years when he was here on a previous visit.

In the King's birthday honors, Dr. G. B. Archer of Ranaghai, Bengal, India was awarded a gold medal for public service to the people of India. Dr. Archer has been twenty years as a Medical Missionary at Ranaghai. He is a brother of Mrs. G. N. C. Higginson and a cousin of Mrs. F. W. Higginson of Irma.

Mrs. Hornek entertained the ladies of the Women's Institute and their friends at her home east of town last Friday afternoon, July 19th, a very pleasant time was enjoyed by all present.

Miss Dorothy Williams is visiting her aunt at Ponoka.

Quite a number from here motored to Wainwright on Sunday after hearing of the fire down there.

A terrific sand storm visited this place Saturday afternoon and the wind blew terrible all night. Not much damage was reported here but in some of the adjoining towns we understand there was considerable.

Mr. Gordon Grob left with two outfits for Blue River last Friday morning for the Jamieson Construction Co.

NEWS ITEMS FROM JARROW

The continued hot dry weather is very discouraging and both crops and gardens are suffering accordingly.

Mrs. Parker of Chilliwack, B. C. is visiting her daughter, Mrs. J. M. Orr.

Mr. and Mrs. J. M. Millar spent a week visiting in Edmonton.

Mr. H. Symonds of the Pool Elevator is holidaying in the city.

Mr. and Mrs. Luxton returned after a two-week motor trip in which they visited Banff, Lake Louise, Field and the Yoho Valley as far as Emerald Lake in B. C.

Miss V. Gibbons, of Innisfree is visiting Mr. and Mrs. Luxton this week.

We are all more than pleased to see the hall practically built. We feel that the hall fills a long felt want in our town. Several bees were arranged and the building was erected entirely by voluntary labor. A free dance was held on Saturday and a large crowd attended. Another dance will be held on next Saturday evening and we hope everyone will come again.

Mrs. Calburn and Miss Holdsworth of Prince George are visiting at the home of Mr. and Mrs. Peet.

Miss Mandie McKay of Wetaskiwin is visiting friends in the district.

"That Miss ——— from Viking is rather cute, she is so kittenish," said one fellow to another at the dance. "Yes," the other replied, "but remember that the kittens grow into cats."

Low Cost Vacations

Possible for Thousands of Residents in Western Canada

IN arranging low fares for prairie residents, we regard this part of our work as a great and important public service. Always ready with men, equipment plus the experience which enables us to care for any movement with smoothness and efficiency.

Suggestions:
Jasper National Park,

Minaki,
Ontario, Quebec,
Maritime Provinces,
Overseas Tour.

THIS summer—escape for a little while from the dull sameness of succeeding days. Our low fares from May 15th to Sept. 30th (with a final return limit Oct. 31st, 1929) make it easy.

OUR trains pass through a territory replete with scenic grandeur; of historical and educational value to the traveller. Nothing superior to our sleeping and dining car service. Radio, an added feature on through trains.

THINK IT OVER!

Whatever vacation section you have in mind, our local agent will be pleased to give every assistance. He will be glad to quote lowest fares and make all arrangements for you—or write
